Profile

Data engineering and analytics student with hands-on experience in Python, SQL, data modeling, and business intelligence reporting. Currently pursuing a Data Science & Machine Learning diploma at Red River College Polytech after completing a Computer & Network Support certificate. Experienced working with multi-table SQL databases, data pipelines for analysis, and Power BI dashboards, and eager to contribute to data pipeline and infrastructure work as a Summer Student in this field.

Core Competencies

Technical Skills: Python | SQL | Data Modeling | ETL/ELT Concepts | Data Integration | Power BI | Excel | Pandas | Jupyter Notebook | Git | Azure (fundamentals) | Data Visualization | Technical Documentation

Soft Skills: Analytical Thinking | Problem Solving | Cross-functional Collaboration | Business Communication | Documentation | Attention to Detail | Willingness to Learn

Professional Experience

Data Analytics Student | Red River College Polytech | 2024 – Present

- Designed and queried a multi-table SQL database on population, economy, and regions, building a foundation in data modeling and relational design.
- Performed exploratory data analysis, cleaning and transforming datasets with Python and Pandas to prepare data for reporting and modelling.
- Built Power BI dashboards and Excel reports to present key metrics and trends with clear, stakeholder-ready visuals.
- Developed classification models in Orange and Python (e.g., logistic regression, decision trees) and compared performance using appropriate evaluation metrics.
- Engineered features and visualized patterns using Python and Pandas.

Education

Data Science & Machine Learning Student | Red River College Polytech | January 2025 – Present | *In Progress* | GPA: 3.9/4.5 | Winnipeg, MB

Relevant Coursework: Linear Algebra | Statistics & Probability | Programming (Python) | Data Analytics | Communications | Data Transformation into Databases | Machine Learning Algorithms | Artificial Intelligence Studies

- **Key Projects:** Netflix Dataset EDA (Exploratory Data Analysis using Jupyter Notebook) | Election Data Analysis with Logistic Regression | Titanic Dataset Exploration (Pandas) | Statistical Probability Simulations (Excel & Python)

Computer & Network Support (I.T.) Certificate | Red River College Polytech | November 2021 – November 2023 | *Completed* | GPA: 4.1/4.5 | Winnipeg, MB

- **Coursework:** Windows Server | Project Management | Network Administration | Hardware/Software Troubleshooting | Call Centre Training | Network Maintenance & Security

Volunteer Experience

Volunteer Computer Support Technician | Options Pathways & Transitions (Day Program for People with Special Needs) | 2024 – Present

- Provide on-site technical support for staff and participants (troubleshooting)
- Perform basic printer maintenance and repairs
- Help maintain shared electronics (computers, tablets, and peripherals).

Community Event Volunteer | Windsor Community Centre | 2023 – Present

- Help organize and set up community BBQ fundraisers, including arranging equipment, preparing spaces, and coordinating basic logistics.
- Assist with greeting attendees and answering questions, contributing to a welcoming and inclusive environment.
- Support event clean-up and teardown to ensure the facility is left safe and organized.

Certifications & Achievements

- Computer and Network Support Certification – RRC Polytech, 2023
- Diploma in Data Science & Machine Learning (In Progress) – Includes coursework in Python programming, Azure cloud fundamentals, databases, and machine learning
- Red Seal Crane Certification – Mobile Crane Operator Branch 1

Tools & Technologies

Category	Skill
Languages	Python SQL Julia (exploring)
Data Platforms	Azure SQL MariaDB
BI & Visualization	Power BI Excel Jupyter Notebook
ML & Analytics	Orange3 Pandas NumPy Statistical Analysis
Version Control	Git GitHub
Other	Markdown Data Cleaning Feature Engineering Model Evaluation
