

Letter of Recommendation

May 11, 2026

To Whom It May Concern,

It is a pleasure to recommend Colin Bennett, whom I have had the opportunity to teach in Data Management. During that time, Colin consistently demonstrated strong analytical ability, a solid work ethic, and a genuine commitment to learning.

Colin approached course material with focus and professionalism. He showed strength in understanding data concepts, working carefully through technical problems, and applying classroom knowledge in a practical way. He was dependable in completing work, receptive to feedback, and willing to put in the effort needed to improve.

In addition to his technical development, Colin conducted himself in a respectful and thoughtful manner. He communicated well, contributed positively to the learning environment, and showed the kind of maturity and persistence that are valuable in both academic and professional settings.

Based on his performance in Data Management, I believe Colin has the potential to succeed in roles involving data, technology, and analytical problem-solving. He would be a worthwhile candidate for further study, internships, or entry-level opportunities.

I am pleased to recommend Colin Bennett and wish him continued success in his future academic and professional pursuits.

Sincerely,

A handwritten signature in black ink, appearing to read 'Miguel Guzman', with a stylized, cursive script.
